I, (name).....acknowledge that:

Semen will be sent after payment of the Service fee of \$1500.00 plus a fee of \$275.00 for collection, handling and Shipping of semen to the nearest airport: **Total \$1775.00 including GST.** If mares fail to get in foal on the first insemination additional shipments of semen will be sent upon receiving the collection, handling and Shipping fee of \$275.00 Inc GST

Payment by cheque (5 working days prior to shipment) or Direct Credit to: BSB 633-000 Account No 123839284 Account Name Flowervale Warmblood Stud

The service fee allows for one pregnancy. The nominated mare must be examined by ultrasound scanner between 15 to 18 days after each insemination and Flowervale Warmblood stud immediately informed of the result. Further examinations after 30 and 45 days are advised. The contract is deemed to be complete after positive 45 day pregnancy test. A Service Certificate will be sent to the owner of the mare. All insemination dates must be entered and the result of a positive/negative test must be stated and certified by the Veterinarian or AI technician. If after two negative pregnancies, if the veterinarian feels the mare may have a problem conceiving, a substitute mare may be used. Shipping and handling charges on all subsequent shipments of semen must be paid for prior to despatch. If the mare owner decides to continue with the listed mare we are more than happy to send more semen.

TNT & Air Express are our preferred carrier, however Flowervale Warmblood Stud is not responsible for any transport delays that may occur whilst the semen is in transit and cannot guarantee the time of arrival at the required destination.

Please note **no semen will be transported** on any of the major carriers closure dates i.e. Christmas Day, however pick up of semen direct from the stud would still be available on these days.
